VMS Band Bank Arm Kit

Bolt on for V4 and V6 ONLY

The VMFK is the Add-On Arm Kit designed to attach to a V4 or V6 unit. This kit is used to attach two BB5 Band Banks and create a VMS and MF multi-modality combo system. 1-3 people can use the combo system at the same time as illustrated below with two BB5's attached to a V6. (BB5's and V6 sold separately)
